PREFACE

This volume is based on a conference held from the 25th to the 27th June 2015 at the University of Mannheim. This conference arose from the research project “The self-presentation of athletes in the Hellenistic period: social identities, political identities, ethnic identities”, sponsored by the German Research Council (DFG) from 2013–2016 (see http://mafas.geschichte.uni-mannheim.de). We are deeply indebted to the DFG for their financial support of the project, the conference and the publication. For their papers and their contributions to the discussion, we would like to thank all the participants in the conference, including Mette Christiansen (Copenhagen), Anna Rambiert-Kwasniewska (Wrocław), and Martin Streicher (Bonn). We would also like to thank Judith Schönholz, Verena Böckle, Kevin Ehmann, Dominic Kaspar, Lukas Kainz, Melanie Meaker and Esther Winkler for their assistance in running the conference. Judith Schönholz, assisted by Max-Quentin Bischoff, Melanie Meaker and Esther Winkler, did a splendid job preparing the manuscripts for publication; Melanie Meaker undertook the task of compiling the index. Katharina Stüdemann from the Franz Steiner Verlag supervised the publication with great competence.

Our final thanks go to the contributors: even when confronted by unusually long e-mails concerning revisions of their papers, they got neither angry nor desperate but kept on working fast, diligently and with good humour.

Mannheim, September 2016
